SEQUENCES

① Write the sequence in the spaces below:

_____   _____   _____   _____   _____   _____

what is the difference between each term?
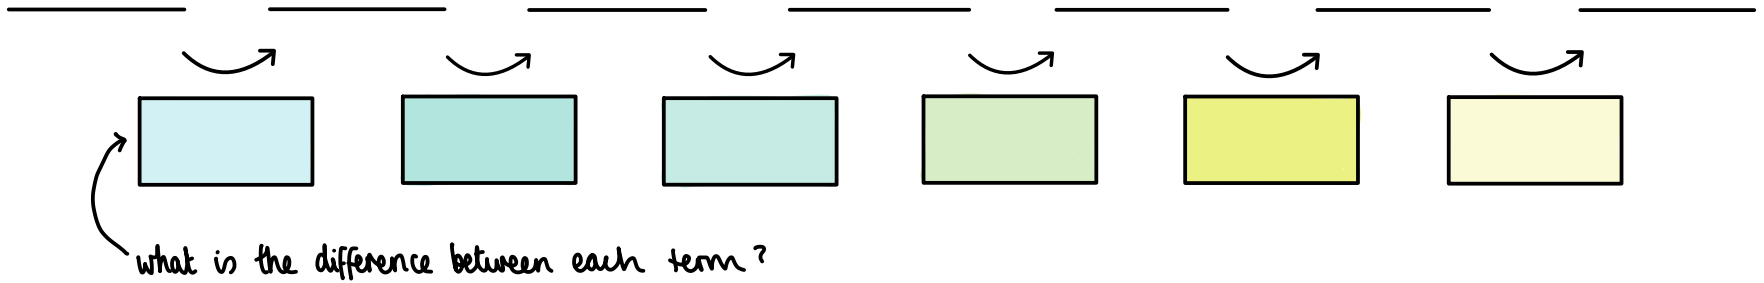

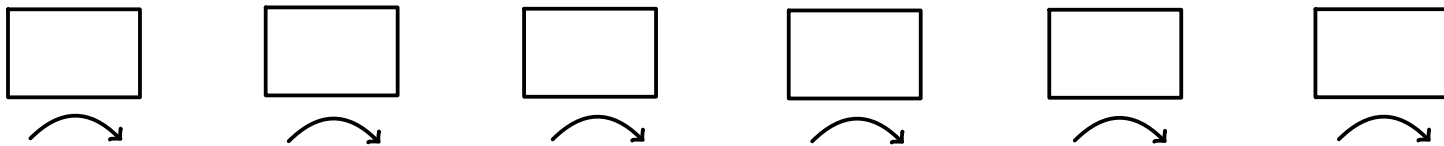

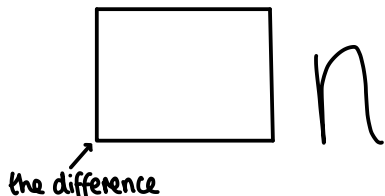

If the difference is the same, the sequence is linear.

If the difference is different, the sequence is non-linear.

NTH TERM

$$\boxed{}\; n \;\underline{}$$

the difference

the difference between the first term in the sequence and the difference between the terms
