

$$Y = MX + C$$

$$y = 3x + 5$$

$$y = 7 + 11x$$

$$y = \frac{1}{2}x - 9$$

$$2x + 0.5 = y$$

$$y = \frac{x}{2} + \frac{1}{4}$$

$$y = 5 - x$$

Write down the coordinates of the y-intercept of each line.

Which equations have the same y intercept?
