WRITE Y = MX + C

Which of the following are in the correct form to be plotted:

$2y = 16x + 12$

$y - 1 = x$

$y = x + 4$

$y - x = 2$

$3y = 3(5 - 2x)$

$y = 7x - 2$

$4y = 20 + x$

$x + 15 = 3y$

Can you rearrange any that are not in the right form?
